SKILLS

Programming Languages

- Python
- JavaScript (ES6+)

Web Technologies

- HTML5
- CSS3
- JavaScript (DOM, Events, Functions)

Tools & Technologies

- Git
- GitHub
- VS Code
- SQLite
- Tkinter (Python GUI)

Concepts

- Data Structures & Algorithms using Python
- OOPs, Exception Handling, File I/O, Database Basics

EDUCATION

B.Tech – Computer Science and Engineering

Godavari Global University,
Rajahmundry

2025 – 2030

- CGPA (1st Year, 1st Sem): 9.2

LANGUAGES KNOWN

- English
- Telugu

- Team Collaboration

PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with a strong foundation in Data Structures using Python, and proficient in HTML, CSS, and JavaScript. Passionate about building responsive web applications and software solutions. Seeking a Software Development Internship to apply my skills and contribute to real-world projects.

PROJECTS

1 Secure Banking Application (Python)

2024

- Developed a secure banking application with account creation, deposit, withdrawal, balance enquiry, and transaction history.
- Implemented OTP-based authentication for secure login and user management.
- Used SQLite for database management and Tkinter for the graphical user interface.
- Integrated transaction history tracking and real-time balance updates.

2 Banking Management System (Python)

2024

- Built a console-based banking system supporting account creation, deposit, withdrawal, and balance checking.
- Implemented account validation and transaction operations using Python functions and dictionaries.
- Ensured data consistency and error handling for a smooth user experience.

3 Housie Number Caller (Python)

2024

- Developed a Housie Number Caller application using Python and Tkinter.
- Generated unique random numbers from 1 to 90 and displayed the history of called numbers.
- Added reset functionality to start a new game.

4 Student Registration Website (HTML, CSS, JavaScript)

2024

- Created a responsive student registration form using HTML, CSS, and JavaScript.
- Implemented form elements including text fields, dropdowns, radio buttons, checkboxes, and text areas with proper validation.
- Enhanced user experience with clean layout, styling, and interactive features.

ACHIEVEMENTS

- Consistently maintained a high academic performance with a CGPA of 9.2 in the first year (1st Semester).
- Actively participate in coding practice and continuously work on improving problem-solving and development skills.
- Strong dedication towards learning new technologies and building real-world projects.
